Lulu

One day there was a cute little bunny rabbit called Lulu. She was six years old and lived in a lovely little home with her mum and dad. She was very happy when one Christmas she got a laptop. She decided to log onto Facebook to chat to some friends from her school.

Fifi

At first she chatted to lots of her friends from school. They talked about what fun things they had learnt that day.

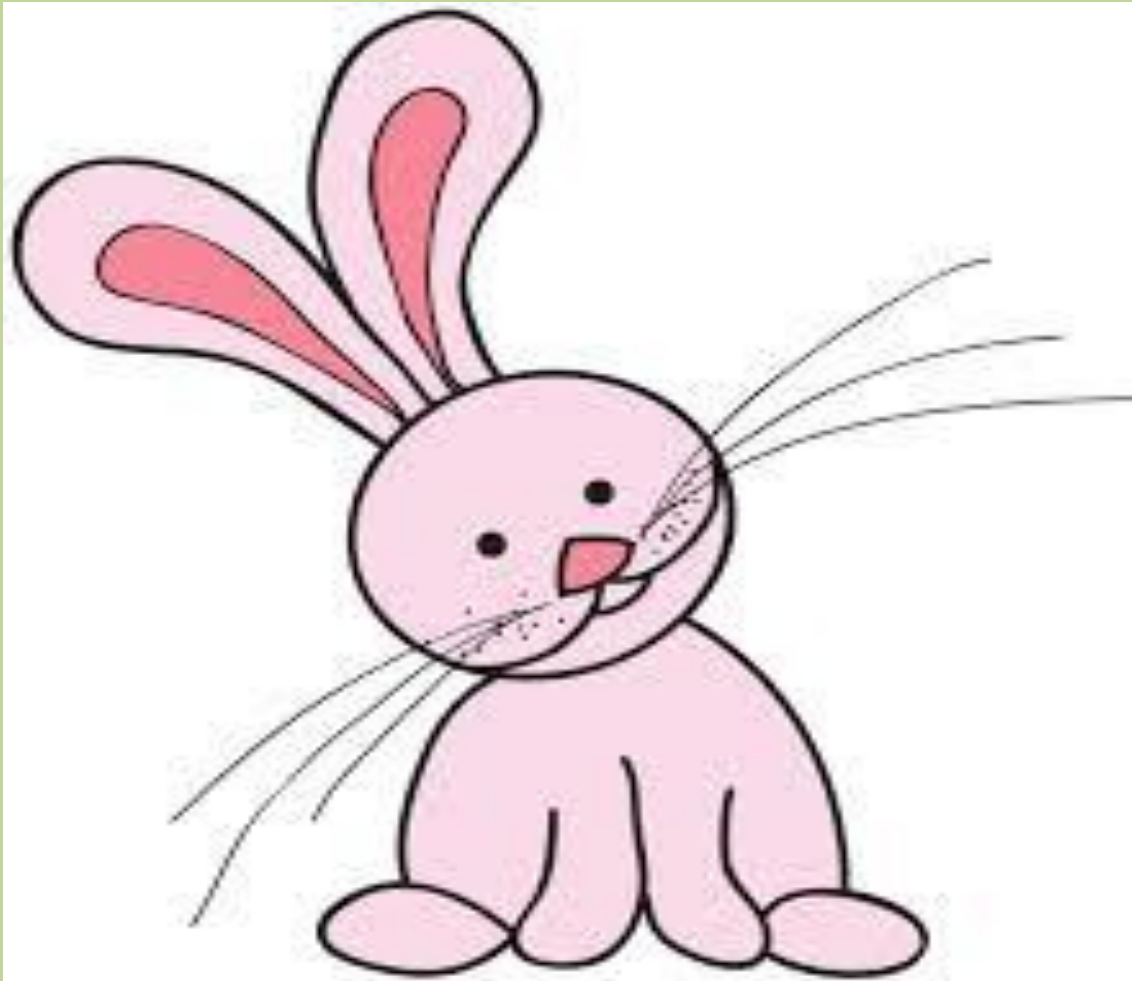

6

One sunny day Fifi asked Lulu to meet at the park to play on the swings. Do you think she should go? Well why not?! Lulu knew Fifi well now, they had spoken online and were best friends!

Lulu was so excited as she hopped off to the park. She was excited to meet her new friend. But when she got there she looked around and couldn't see the little bunny anywhere!

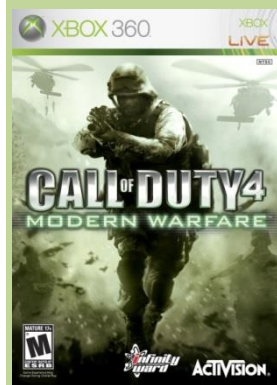

She could see other animals but not the cute rabbit with the flower!

Do you know why? Because Fifi wasn't really a bunny. She was a crocodile!

What had happened to Lulu? She had been tricked by someone online. She trusted someone who had a pretend picture and she put herself in danger.

What is E-Safety?

Don't talk to strangers (in real life or on the internet)

Always tell an adult if you don't like something.

Never give out any details on the internet.

Play games for your age.
